

Now the Silent Pet

(Photo by Underwood & Underwood, N. Y.)

The latest fable of fashion is the fur fox scarf. The inanimate decoration is used by the young lady in the guise of a pet. It is also used for a neck covering on evening gowns. It is one of the winter's novelties.

BLOUSE TRIMMED WITH FUR

Showing the Possibilities of This Charming Ornamentation When It is Properly Applied.

Our artist has illustrated in the sketch before you an excellent example of the charm of fur trimming. The alliance of a lace waistcoat with white panne gives added charm. This blouse is especially suited to five o'clock calls or bridge teas, especially as it can be comfortably worn under a fur or velvet coat. The foundation

is of dull Louis blue satin, veiled all over with deep purple chiffon so as to correspond with the skirt of purple cloth. The roll-over collar and waistband is of deep purple velvet, the collar and oversleeve of which are edged with skunk. On the head is worn a soft beret of ruby velvet and purple, with a big white heron's feather. A novelty is shown in the muff of skunk with an entire skin of white fox, lined with purple silk, flatly applied on the muff in hearth-rug fashion.

Buttressed Down the Back.

Skirts buttressed all the way down the back are the latest caper of fashion. An evening gown, worn at a large reception recently, had one of these skirts. The gown was of pale yellow satin charmeuse, the sides of the skirt being lifted in slight draped effect at the hip and passing under the broad panel which formed back and train. This back panel was buttressed down the center with small buttons of the yellow satin set closely together, and the line of buttons extended from the waist line to the end of the train. The satin skirt was draped up over bodice of yellow chiffon, and yellow satin buttoned boots and long, embroidered gloves of pale yellow silk completed the costume.

Effective Suits.

Suits combining broadcloth and velvet are effective. Three-piece costumes are made of charmeuse and velvet, the latter being used for the coat and the dress trimming.

RAINY DAY SUIT FOR CHILD

Something That Every Youngster Needs—Its Manufacture and Proper Mode of Preservation.

Overall—Get a pattern one size larger than age called for; cut the pattern out just above the knee, and if desired raise the material under the arm, also over the back and chest. This is not always necessary; it depends upon the pattern of overall. Try the pattern against the child, and allow from four to six inches below the collar.

Cape—Circular cape; length, a little shorter than length inside of the elbow, to give perfect freedom.

Sleeves—Plain, not full, cut by any ordinary sleeve pattern.

Place the cape and the sleeves on the child and where the sleeves naturally join the cape, pin over the shoulder and baste. The underpart of the sleeve is left free, and is bound with narrow bias fold of material or tape. Stitch the military strap on top of the shoulder of the cape to prevent the stitching showing. This adds strength and gives a trim effect.

When the costume is complete, dip in melted paraffin (which has been removed from the stove) in a kettle large enough to allow the goods to be well immersed. Leave in the hot solution for ten or fifteen minutes, allowing the parts equal opportunity to absorb paraffin. Lift out carefully by the hem and allow to drip. When dry, the garment will be stiff. Rub between the hands to reduce stiffness and remove any unnecessary paraffin, which is apt to be too thick in heavy places. The garment may be redipped at any time and the same paraffin may be used again. Generally two dippings annually give perfect satisfaction.

Scrollwork Drapery.

Soft satins are draped with mouseline and chiffon, having a covering of Renaissance scrollwork all over in a darker shade, that is most lovely. The graceful drapery of such gowns is quite indescribable. A very pretty soft falling black satin has a black lace front over white chiffon, the vest all puckered and white chiffon brought to the neck with the black lace on either side. The sleeves are made of black tulle puffed over white to the wrist. On many of the black dresses a touch of color is introduced and has a wonderful effect, seeing how little is used—just a strip of ribbon introduced on one side. Many of the gowns made in diaphanous materials have a panel of satin starting from above the waist and carried down the entire length of the skirt.

Plush as Coat Trimming.

One of the trimming notes that have met with great success in coats at the present time is plush, says the Dry Goods Economist. The plush used has a very deep nap, giving the effect of fur. It makes a most attractive finish. Seal brown, which gives the same effect as beaver, and taupe, which gives the effect of mole, are among the popular colors.

Color Beauty Touches.

The Roman wash lends a pretty effectiveness to the plain tailored velvet till the idea shall have been taken up too commonly, and there are many other little adaptations of color that enhance their beauty.

FINAL SESSION OF 62ND CONGRESS

BOTH HOUSES OPEN AND ADJOURN EARLY TO RESPECT DEAD.

SENATOR BACON WIELDS SHERMAN'S GAVEL.

Majority of Members of Old Guard Sing Their Swan Song at Short Opening Meeting on Monday.

Promptly at 12 o'clock Speaker Clark banged his gavel on the new sounding board of his desk in the house, and the third session of the sixty-third session of congress was on.

One minute later, the United States senate was opened by Senator Bacon, the president pro tem.

The senate chamber, which a moment before had been a-buzz with conversation, was hushed in silence. On the floor, besides senators, were a large number of officials and employees of the senate; the galleries were crowded. Only the president's row in the senator's private gallery and the diplomatic section were vacant.

Conspicuous among the senators present was Senator Dixon, chairman of the progressive national committee, who, because of his political activities, was absent during the greater part of last session. Senator La Follette appeared in better health and spirits than for several years. Senator Nelson appeared, as he always does the first day of each session, in a Prince Albert coat. Senator Stephenson has his whiskers closely cropped. Senator Tillman, who has been ill for several years, and who has just been chosen for a fourth term, received congratulations on his improved health.

The chaplain, in invoking divine blessing, referred with feeling to the death of Vice President Sherman and also to the death of Senator Heyburn and Senator Rayner, also Sergeant-at-Arms Ramsdell.

The session begins under circumstances of unusual interest. It comes together after a political upheaval of far-reaching extent which will soon transfer all the executive and legislative branches of the federal government to democratic control.

While the present session is merely the expiring stage of a congress soon to go out of existence and to be superseded in political control and policy after March 4, yet Monday's sessions in the senate and house brought together for the first time since the recent overturning those leaders and elements of the various parties who have been most prominent in public affairs. The old faces and figures are again in evidence, although some of them, like ex-Speaker Cannon, will soon pass off the congressional stage, while others, like Speaker Champ Clark and Chairman Underwood, have had their tenures renewed and strengthened.

Harriman's Merger "Busted."

Declaring illegal the Harriman railroad and shipping monopoly, the supreme court sustained the government's "trust busting" suit by ordering dissolved the merger of the Southern Pacific, Union Pacific and "Salt Lake" railroads.

"Wizard" Harriman's monument of railroad and Pacific coast shipping combines was held to be a gross violation of the Sherman anti-trust law.

The higher court emphatically refused to invoke its "rule of reason" laid down in the Standard Oil and tobacco trust cases, to approve the railroad combine. The merger was declared "unreasonably" in restraint of trade.

Four Dynamite Defendants Discharged.

Four of the 45 defendants in the "dynamite conspiracy" trial in Indianapolis were discharged by the government on the ground that the charges against them had not been sustained.

The dismissal of the cases, leaving 41 labor union officials still on trial, came when Charles W. Miller, United States district attorney, announced that the government's evidence was all presented and that the government rested its case.

Thousands Killed in Mexican Quake.

Thousands of persons were killed in the rural districts of Mexico by the earthquake which rocked the entire republic a week ago and thousands of others are dying of starvation and doomed by disease as a result of the widespread devastation, according to news of the disaster which is still filtering into the capital of Mexico.

A second accident within a week occurred at the Turpin plant in Cadillac, when Edward Nelson, aged 50, was hurled by a pine stump against a revolving saw and was cut the whole length of his back. Surgeons doubt the man's ability to recover.

Secretary A. C. Carton, of the public domain department, says the leases on which the state is figuring to allow the Northern Development company to prospect for gas and oil are about completed. A meeting for the purpose of going over the leases will be held Dec. 6.

TENTATIVE PEACE PACT

Balkan Foes and Turks Agree on Armistice to Stop Hostilities.

A tentative peace agreement between Turkey and the Balkan allies has been reached. The armistice according to an official announcement, paves the way for final peace terms.

The new armistice will be general and will bring about a cessation of hostilities throughout European Turkey.

Final negotiations will be carried out on the same basis as that of the armistice.

Grand Vivier Klamil Pasha announced the armistice, but did not reveal the terms. He intimated, however, that they were much better than the original terms imposed by Bulgaria on Turkey.

May Pass "Blue Sky Law."

A "blue sky law," adapted from a measure now in force in Kansas, will be presented in the Michigan legislature this winter. The bill, which is for the purpose of protecting the investor from putting money in concerns organized for the principal purpose of selling stock, was favorably considered at the national convention of insurance commissioners at Spokane, Wash., last July. At the adjourned convention, which will be held in New York next week, it will be refined and, to some extent, modified.

It is proposed to introduce the measure in every legislature in the country through the insurance commissioners of the various states. C. A. Palmer, Michigan insurance commissioner, regards the measure very highly.

Ask State to Pay for Death of Eisey.

William Dase, of Grand Rapids, who purports to be a representative of the Turkish embassy, was in Lansing and held a conference with Attorney General Wykes, relative to the death of John Eisey, the Syrian, who was shot and killed at the time of the Jackson prison outbreak. Dase wants the state to pay the widow of Eisey a certain sum of money, amount not mentioned.

Wilson Wants Inaugural Delayed.

Governor Woodrow Wilson is willing to take the oath of office as president of the United States without ostentation on March 4, and that the formal ceremonies that every fourth year attract thousands of citizens to Washington be postponed until the last Thursday in April.

MADE HIM SOMEWHAT TIRED

Mose Had Good Excuse for Wishing to Be Rid of the Company of Sam Jackson.

"Twan't all account o' dat yaller gal, Saliny," exclaimed Mose, talking with difficulty through the bandages that swathed his face.

"I goes out walking wid her and along comes dat Sam Jackson, what she's been keeping company with. Widout saying a word dat man comes over and busts me in the mouf. No sooner did I get up dan, bam! He lands on my left year and over I goes again."

"After that he hit me on this year and then in the other one; and stomped on me while I was down. When I got up and began to run he followed, kicking me every yuther step."

"I never got so tired of a cullud man in all my life!"

HAIR CAME OUT IN BUNCHES

813 E. Second St., Muncie, Ind.—"My little girl had a bad breaking out on the scalp. It was little white lumps. The pimples would break out as large as a common pinhead all over her head. They would break and run yellow matter. She suffered nearly a year with itching and burning. It was sore and itched all the time. The matter that ran from her head was very thick. I did not comb her hair very often, her head was too sore to comb it, and when I did comb, it came out in bunches. Some nights her head itched so bad she could not sleep."

"I tried several different soaps and ointments, also patent medicine, but nothing could I get to stop it. I began using Cuticura Soap and Cuticura Ointment this summer after I sent for the free samples. I used them and they did so much good I bought a cake of Cuticura Soap and some Cuticura Ointment. I washed her head with Cuticura Soap and rubbed the Cuticura Ointment in the scalp every two weeks. A week after I had washed her head three times you could not tell she ever had a breaking out on her head. Cuticura Soap and Ointment also made the hair grow beautifully." (Signed) Mrs. Emma Patterson, Dec. 22, 1911.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Explaining What a Snob Really Is.

"Uncle Roy, what is a snob?"
"A snob, Eddie, is a person who inherits a great deal of money, goes abroad and buys himself a veneer of culture, returns home and poses as a connoisseur of something, and goes around calling his poor relations 'parvenues.' Why do you ask such a question, Eddie?"

"Because I heard Donald's big brother talking about you this afternoon, and he said you were a snob."

Wireless Map.
A novelty in the way of maps has just been issued by the German Imperial postoffice, which has compiled a chart showing the principal wireless telegraph stations in the world. The object is to advertise the facilities now afforded in Germany for "drahtlose" telegraphy. German stations are, of course, given special prominence on the map, and in this connection it is interesting to note that the station at Neuen is claimed to be the most powerful in existence, its range being 2,100 miles. This is two hundred miles more than that of Eiffel tower.

I Invite Suffering Women

There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the delicate female organism. There is every reason why she should write or personally consult an experienced specialist.

As a powerful, invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For "run-down," debilitated women of all occupations

is unequalled as a restorative tonic. As a soothing and strengthening nerve "Favorite Prescription" allays and subdues nervous excitability, irritability nervous exhaustion, and other distressing symptoms commonly attendant upon functional and organic diseases of the feminine organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is devised and put up by a physician of vast experience in the treatment of women's maladies. Its ingredients have the endorsement of leading physicians in all schools of practice.

The "Favorite Prescription" has been sold by dealers in medicine in its liquid form for over 40 years. Now it can also be obtained in the tablet form—or send 50 one-cent stamps to Dr. Pierce for trial box.

Dr. Pierce's Pleasant Pellets invigorates the stomach, liver and bowels. One to three a dose. Easy to take as candy.
